

Power Curve Working Group

ALAN DERRICK
SENIOR TECHNICAL MANAGER
Kick-Off Meeting -
Welcome Collection, London
4th December 2012

Relationship/Distinction with/between IEC Standard

IEC 61400 12-1	Power Curve Working Group
Absolute Reference Power Curve	Real-World Reference Power Curves
Repeatable in reference conditions	Repeatable in defined conditions
A measurement standard	Measure/Model/Theory/Empirical
Defines best-practice	Builds on best practice & experience
Provides the starting point	Takes us to the desired end point

- IEC standard is a necessary input to the processes of the Power Curve Working Group

power for good
